Brightspace Content

The content page is where you configure your course by adding content such as documents, lecture recordings and PowerPoint presentations, but also by adding learning activities such as assignments and quizzes.

The content in Brightspace is structured in **Units, modules** and **Activities**. You can use the modules to organize the course offerings and activities to organize the content in each module.

You can **rearrange** course materials by dragging and dropping activities within units.

Use the **Visibility** toggle to hide or show content to your students. If your module or activity is still under construction, we advise you to hide it from your learners until it is finished.
